

Monthly Development

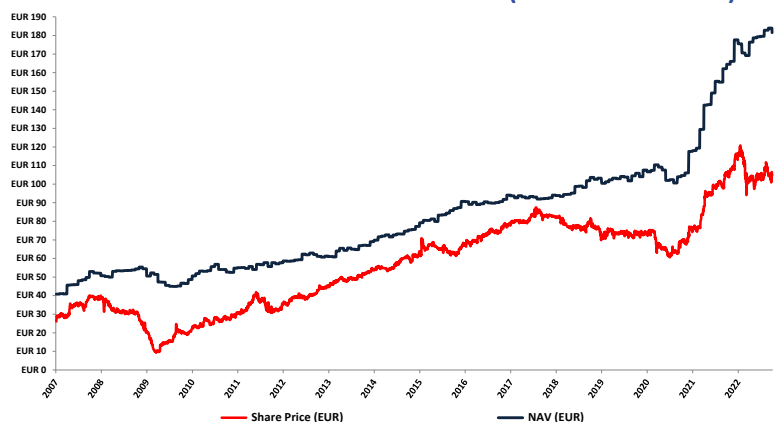

As of September 30, 2022, the Net Asset Value (NAV) per share of Private Equity Holding AG (PEH) stood at EUR 156.58 (CHF 150.53), representing a negative change of -1.5% in EUR (-3.4% in CHF) since August 31, 2022.

For the month of September, the portfolio performance was negative. Favourable FX movements could not compensate the negative valuation adjustments that were recorded for several portfolio funds and direct co-investments as well as for listed positions mainly in respect of listed technology shares held by funds. The valuation adjustments of the direct co-investments are in line with the respective public market comparables.

The portfolio was cash-flow positive on a low level with total distributions amounting to EUR 2.5m vs. EUR 1.9m paid into the portfolio. PEH received noteworthy distributions from Sycamore Partners from its investments in LOFT, an American women's retail fashion brand, and Lane Bryant, an American women's apparel retailer focusing on plus-size clothing, as well as from Medicxi III, distributing proceeds from the sale of a clinical-stage U.K.-based biotechnology company focusing on immunotherapies.

In addition, Warburg Pincus distributed proceeds from various transactions, with the majority from the sale of Reorg Research, a global provider of credit intelligence and analytics, and Foundation Risk Partners, one of the fastest growing insurance brokerage and consulting firms in the United States.

*Starting with the February 2021 NAV publication, PEH has changed the presentation of the long term NAV performance. Historically, dividends were added but not re-invested; the information now assumes a reinvestment of the dividend payment at the time of distribution.

Reasons to invest

- PEH offers unique access to top-tier private equity investments
- Excellent track record with 437% NAV growth since 2007 (Total Return)
- Fixed income element through dividend policy
- Strong alignment of interest as investment manager itself is substantially invested in PEH

Portfolio Diversification

Disclaimer

The number of outstanding shares used for calculation of the Net Asset Value per share amounted to 2,505,656 as of September 30, 2022 (August 31, 2022: 2,503,986). The calculations are prepared in accordance with International Financial Reporting Standards (IFRS) and pursuant to the guidelines of Invest Europe (formerly known as the European Venture Capital Association). The valuations of the fund investments are based on the most recent reported net asset values (NAVs) of the funds. In estimating the fair value of unquoted direct investments, Private Equity Holding AG considers the most appropriate market valuation techniques. The fair value of listed direct investments is the market value. The NAV of Private Equity Holding AG is calculated at the end of each month under a going concern assumption and usually published within six trading days after the cut-off date. The different reporting cut-off dates of the individual companies and funds in which participations are held can lead to short-term distortions and cause discrepancies between the published NAV and the actual total value of Private Equity Holding AG's net assets. Please note that the financial data in this newsletter is unaudited. The accuracy of the information cannot be guaranteed and no liability shall be accepted in this respect. This newsletter is for information only and does not constitute an offer to buy or sell PEH-shares. Overcommitment is calculated as follows: (unfunded commitments - net current assets) / (non-current assets - non-current liabilities).
